EDUCATION

JECRC UNIVERSITY

Masters of Computer Application
(MCA) Specialization
(Cloud Computing & Full Stack
Development - IBM)
Aug 2023 - Present | Jaipur,
Rajasthan

CVM UNIVERSITY | NVPAS College
Bachelors of Computer Application
(BCA)
May 2023 | Anand, Gujarat
CGPA: 9.72/10.0

SKILLS

PROGRAMMING LANGUAGES:

C++ • Java • Python • HTML • CSS
• JavaScript • PHP

LIBRARIES / FRAMEWORKS:

ReactJS • TailwindCSS • NodeJS •
Flutter • ASP.NET

DATABASES:

MySQL • MongoDB

TOOLS / PLATFORMS:

Visual Studio Code • Git/GitHub

INTERESTS

Sketching • Self-improvement •
Gaming • Photo & Video Editing

STRENGTHS

Problem-Solving • Organizational
Skills • Time Management

PROJECTS

ONLINE JBL STORE | BCA 6th SEM PROJECT

Technologies: ASP.NET, MySQL Server Database | [GitHub](#)

- Developed a full-featured E-Commerce website with two user and admin modules to facilitate online shopping.
- **Admin Module:** Enabled admin to view the dashboard, manage customers, orders, and products.
- **User Module:** Allowed users to create accounts, view product details, add items to the cart, complete payments, and view recent orders on their profile page.
- Improved user experience by implementing a streamlined shopping process and an intuitive admin dashboard for easy management.

REALTIME CHATTING SYSTEM | BCA 5th SEM PROJECT

Technologies: AJAX, PHP, MySQL | [GitHub](#)

- Built an online real-time chatting platform with dual modules user and admin for seamless communication.
- **Admin Module:** Provided functionalities to manage users and handle reports.
- **User Module:** Allowed users to search for new users, block/unblock users, edit profiles, view real-time user status, and read receipts.
- implemented Successfully AJAX to handle real-time updates, ensuring smooth and continuous chat interactions between two users.

MOVIE STREAMING & SUBSCRIPTION SYSTEM | BCA 4th SEM PROJECT

Technologies: PHP, MySQL | [GitHub](#)

- Created an online movie streaming and subscription service with distinct two modules user and admin.
- **User Module:** Allowed users to view movies, add movies to their Wishlist, search for movies, and purchase subscription plans.
- **Admin Module:** Functionalities for admin to manage users, movies, subscription plans, and payment reports.
- Learning Outcome: Gained expertise in handling media uploads and creating a custom user interface for an enhanced viewing experience.
